Graph View

Filters ^

There are many ways to view your data. You can choose from different filters to see how your data changes over time. You can also choose to view your data in different formats, such as a line graph or a bar chart. The graph view is the most popular way to view your data, and it allows you to see trends and patterns in your data. You can also use the graph view to compare your data to other data sets. The graph view is a powerful tool for analyzing your data, and it is one of the most important features of the Mind Your Bubble app.
